- Designed 5,000+ creative pieces — posters, banners, magazines, logos, standees for digital and print.
- Created learning and branding videos for departments and clients.
- Designed and developed 30+ websites using HTML, CSS, JavaScript, and Bootstrap.
- Strong UX understanding with ability to learn new technologies and design trends quickly.
- Successfully managed multiple projects while collaborating across departments.

WORK EXPERIENCE

Interactive Designer

Dubai · Jun 2024 – Aug 2026

Amdocs Gulf · Nityo Infotech

Major clients: Vodafone Germany, True Thailand, Comcast America, Bell Canada, Rogers Canada, Optimum US

- Led visual and interaction design for paper/PDF and digital bills, focusing on usability, accessibility, consistency, and client requirements.
- Owned the end-to-end design lifecycle — requirements analysis, design solutions, prototypes, new features, and optimisation of existing experiences.
- Created bill mockups, digital prototypes, layout specifications, bill logic/rules, and design documentation.
- Collaborated with UX, development, QA, testing, and client teams to validate feasibility and ensure accurate implementation.
- Provided production-ready assets and ongoing design support through development, testing, deployment, and post-production.
- Reviewed final bill outputs against approved designs to ensure accuracy, quality, consistency, and compliance.
- Managed stakeholders, presented design solutions, gathered feedback, and owned key design decisions.
- Applied accessibility principles and regulatory requirements; established reusable design standards and best practices.

Interactive Designer

Pune · Dec 2021 – Jan 2024

Amdocs

- Designed UI for paper (PDF) and digital bills for worldwide telecom providers.
- Created comprehensive style guidelines and layout specifications for bill designs.
- Built digital bill mockup prototypes to help customers understand features clearly.
- Worked closely with development teams to assess implementation feasibility.
- Verified design documents were error-free and met all requirements.
- Resolved development and testing team queries; reviewed output against highest standards.
- Provided continuous design support across accounts, initiatives, and new product features.
