What is Money Laundering?

DEFINITION:

The process of disguising criminal proceeds to try and hide their illicit origins, and legitimise their future use.

OBJECTIVE:

To conceal true ownership and origin of the proceeds, a desire to maintain control, and a need to change the form of the proceeds.

TECHNIQUES:

They can be simple, diverse or complex but they are secretive.

What are the Stages of KYC?

KYC HAS TWO STAGES

IDENTIFICATION

VERIFICATION

**Do not hesitate
to ask questions:**

What is the purpose of the transaction?
What is your relationship with the beneficiary?
What is the source & deployment of funds?

***Remember KYC doesn't mean to INVESTIGATE the customer; it checks whether the information provided by the customer is correct.*

Data Integrity

Data integrity is the maintenance and assurance of accuracy and consistency of data over its entire life-cycle

- Data integrity is the opposite of data corruption, which is a form of data loss.
- The intent of any data integrity technique is the same: ensure data is recorded exactly as intended for later retrieval
- Ensure that the data is the same as it was when it was originally recorded
- Data integrity should aim to prevent unintentional changes to information
- Data integrity should not be confused with data security which in itself is the discipline of protecting data from unauthorized parties
- In our industry it is critical to capture the following data without any errors while checking the behavior of the customer;

Correct name that includes first, middle and last name details, as applicable

Correct address of the originator and beneficiary

Accurate identification details after thoroughly checking on issue and expiry data

DOB, gender, phone number & email address

Note : Use Customer Registration feature available on XM system

MARKETING STRATEGY FOR THE EVENT

As this is a festive event, we have planned a huge marketing campaign in which we will be doing both ATL and BTL marketing of the event to ensure that this event will be a hit

ATL marketing strategy

- One Month prior to the event we will start working on the event for registration. Radio will play games and winners will get a chance to take part in creating the Onam Flower Arrangement.
- Flyer ads will be pasted where event information will be announced one month prior to the event. They will encourage people to take part in the event to create a world record.
- Live updates during the event and post event will be published on Radio and TV

Social Media Marketing Strategy

Event information will be marketed on the social media and

month prior to the event and we will ensure that all the attendees are included and will participating actively in the campaign. Live video bytes will be shared in the social media.

BTL marketing strategy

- This event will be marketed on major restaurants and sponsor outlets for flyers and posters.
- Newspaper ads will be published twice in the month prior to the event where they can go and take part in the event.
- On the day of the event, the stadium will be boarded with the event details and sponsors. Huge screens will be set up on the day of the event inside the venue. Where Ad of sponsor's Logo will be played during the event.

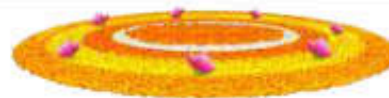

POOKALAM IN ONAM

- Pookalam is an intricate and colourful arrangement of flowers laid on the floor. The tradition of decorating Pookalam is extremely popular in Kerala and is followed as a ritual in every household during ten-day-long Onam celebration.
- Pookalam consists of two words, 'pook' meaning flower and 'alam' means colour sketches on the ground. It is considered auspicious to prepare Pookalam, also known as Vethala-Pook during the festival of Onam.
- People believe the spirit of their dear King Mahabali visits Kerala at the time of Onam. Besides making several other arrangements, people, especially adolescent girls prepare elaborate Pookalams to welcome their most loved King.

WORLD'S LARGEST POOKALAM

- Novo Elite Events is planning to create the world's largest Pookalam at Sharjah Cricket Stadium on 1st September 2017.
- This will be the world's largest flower arrangement which will be done in 25,000 sq. feet of area with around 50 tonnes of flowers to design the flower arrangement.
- Novo Events is also planning to arrange Onam food 'Sadhya' for 8,000 - 10,000 people at the same time.
- The main social gathering will celebrate the event for a World record which would hold up for a long time since the previous world record was broken in 2011.
